WORK EXPERIENCE

Software Engineer Intern

DICK's Sporting Goods

May 2025 - current Pittsburgh, PA

- Developed internal utilities supporting e-commerce order tracking and inventory visibility, enabling monitoring of 140+ daily order status updates across staging environments.
- Optimized backend data retrieval scripts in Python, reducing average inventory query latency by 31% for internal reporting tools.
- Implemented ***automated validation checks across 5 service endpoints***, improving reliability of product availability updates in test environments.
- Automated log analysis routines that reduced manual debugging time by ~3 hours weekly for the development team.
- Investigated inconsistencies in order processing workflows, resolving issues affecting three internal integration services.
- Documented development setup steps and troubleshooting workflows that shortened onboarding time for new interns by one training session.

Online Tutor

Easyke

December 2021 - April 2025 Pittsburgh, PA

- Delivered one-on-one virtual tutoring sessions in programming and computer science topics, supporting 25+ active students weekly across remote learning sessions.
- Improved student coding assignment completion rates by 29% by introducing structured debugging and problem-solving exercises.
- Designed practice programming challenges using Python, helping learners strengthen algorithmic thinking and coding fundamentals.
- Developed customized learning plans for 8 recurring students, tailoring sessions to match individual learning pace and goals.
- Evaluated student progress through weekly coding assessments, ***reducing average problem-solving time by 17 minutes*** per exercise.
- Maintained session notes and feedback reports reviewed each month to track student improvement and refine lesson strategies.

CAREER OBJECTIVE

Problem solver and strong communicator eager to prove my value and talent at an emerging company like Revature. Motivated to advance and expand my skill set through targeted mentorship and challenging projects.

EDUCATION

B.S.

Computer Science

University of Pittsburgh

September 2021 - April 2025

Pittsburgh, PA

GPA: 3.7

Relevant courses

- Data Structures
- Algorithm Design
- Database Management Systems
- Computer Vision
- Software Design Methodology

SKILLS

- Python
- Backend Development Fundamentals
- Debugging & Code Analysis
- Technical Tutoring / Programming Instruction
- Communication & Teaching
- Analytical Problem Solving
- Documentation & Organization
- Student Mentorship
