WORK EXPERIENCE

Software Engineer

Microsoft

August 2022 - current Redmond, WA

- Engineered backend services supporting cloud-based platform features, enabling internal systems to process ~15k service events daily across distributed environments.
- Optimized data access patterns in C#, reducing average service response latency by 37% for high-volume enterprise workflows.
- Implemented automated integration tests within the CI pipeline, expanding regression coverage across 9 platform components before production releases.
- Collaborated with product and infrastructure teams to implement three key platform improvements during two-week sprints, resulting in a 25% ***faster rollout of new customer-facing features.***

Junior Developer

Amazon

May 2019 - June 2022 Seattle, WA

- Developed backend features supporting internal retail operations tools, enabling management of 140+ daily order-processing tasks across fulfillment systems.
- Refactored service logic in Java, shortening average batch job completion time by 19 minutes per run during inventory updates.
- Integrated RESTful endpoints connecting operational dashboards with backend services, supporting data exchange across 3 internal applications used by operations teams.
- Partnered with senior engineers and product stakeholders to ***ship workflow enhancements that raised internal usability scores*** to 4.5 / 5.

Intern

Amazon

May 2018 - May 2019 Seattle, WA

- Built internal tools for monitoring warehouse inventory metrics, enabling teams to track 120+ active product categories through a centralized dashboard.
- Automated recurring data preparation scripts in Python, reducing manual reporting work by ~5 hours per week for the analytics team.
- Investigated inconsistencies in inventory synchronization pipelines, resolving discrepancies affecting three regional data feeds.
- Documented system setup procedures and development guidelines that ***shortened onboarding time for new interns*** by one training session.

EDUCATION

M.S.

Computer Science & Engineering

University of Washington

2018 - 2020

Seattle, WA

B.S.

Computer Science

Massachusetts Institute of Technology (MIT)

2014 - 2018

Cambridge, MA

SKILLS

- Java
- C#
- Python
- REST API Development
- Cross-Functional Collaboration
- Analytical Problem Solving
- Agile Development Practices
- Technical Documentation

CERTIFICATIONS

- Google Associate Android Developer Certification
