Makati, PH

EDUCATION

B.S. Chemical Engineering (Petroleum Track)

Chemical Engineering

University of Santo Tomas

2013 - 2018

Manila, PH

SKILLS

- Production Optimization
- Reservoir Simulation
- Drilling Engineering
- Petrel
- Eclipse
- Well Log Analysis

WORK EXPERIENCE

Petroleum Engineer

Philex Petroleum Corporation

Apr 2021 - current Makati, PH

- Analyzed production data from 12 offshore wells to optimize hydrocarbon recovery strategies.
- Built reservoir simulation models in Eclipse identifying 3 infill drilling opportunities.
- Reduced well downtime by 18% through improved artificial lift optimization protocols.

Production Engineer

Vaalco Energy Philippines

Aug 2018 - Mar 2021 Makati, PH

- Monitored daily production operations for 6 producing wells in the Galoc oil field.
- Prepared monthly production forecasts and variance analysis reports for management review.
- Coordinated wireline and workover operations completing 8 well interventions on schedule.

Petroleum Engineering Intern

Department of Energy – Oil Industry Management Bureau

Jan 2018 - May 2018 Taguig, PH

- Assisted in reviewing exploration reports submitted by service contractors in Philippine basins.
- Compiled production statistics for the annual Philippine Energy Plan oil and gas section.
- Supported technical evaluation of 2 petroleum service contract applications.
