ANGELA NAVARRO

Embedded Systems Engineer

CONTACT

anavarro@email.com
(63) 925-890-1234
Santa Rosa, Laguna, PH

EDUCATION

B.S. Electronics Engineering
Electronics Engineering
De La Salle University
2014 - 2019
Manila, PH

SKILLS

- C/C++
- FreeRTOS
- ARM Cortex
- MQTT
- I2C/SPI
- CAN Bus

WORK EXPERIENCE

Embedded Systems Engineer

Integrated Micro-Electronics Inc.

Sep 2021 - current Laguna, PH

- Developed firmware for ARM Cortex-M4 IoT sensors deployed across 200+ industrial sites.
- Optimized RTOS task scheduling, reducing CPU utilization by 18%.
- Integrated MQTT layer enabling real-time telemetry with sub-500ms latency.

Hardware Engineer

Texas Instruments Philippines

Jul 2019 - Aug 2021 Baguio, PH

- Designed and validated PCB schematics for 5 automotive-grade sensor modules.
- Wrote Python test scripts automating firmware validation, reducing test time by 30%.
- Debugged hardware-software issues using oscilloscopes, logic analyzers, and JTAG.

Electronics Engineering Intern

Amkor Technology Philippines

Jan 2019 - May 2019 Laguna, PH

- Assisted in failure analysis of semiconductor packages using SEM cross-section techniques.
- Documented test procedures for 3 new IC package qualification projects.
- Supported yield improvement initiatives on the QFN packaging production line.
