Bulacan, PH

EDUCATION

Bachelor of Science in Mechanical Engineering

Mechanical Engineering

Bulacan State University

2014 - 2019

Bulacan, PH

SKILLS

- HAP Software
- AutoCAD MEP
- Refrigerant management
- HVAC systems design
- ASHRAE Standards

WORK EXPERIENCE

HVAC Engineer

Jones Lang LaSalle Philippines

March 2022 - current Makati, PH

- Designed and commissioned central HVAC systems for 4 Grade A office towers in BGC.
- Conducted energy performance benchmarking for 12 commercial buildings under JLL management.
- Reduced energy consumption by 19% across 3 facilities through chiller optimization programs.

Refrigeration Engineer

San Miguel Foods

July 2019 - February 2022 Cabuyao, Laguna, PH

- Managed ammonia refrigeration systems for cold storage facilities with 8,000-ton capacity.
- Implemented preventive maintenance program reducing compressor breakdown frequency by 35%.
- Supervised installation of new blast freezing system increasing freezing capacity by 25%.

HVAC Engineering Intern

York Philippines

January 2019 - May 2019 Makati, PH

- Assisted in commissioning and testing of VRF air conditioning systems for 2 hotel projects.
- Observed chiller plant startup and performance verification procedures.
- Compiled equipment datasheet information for 3 HVAC equipment submission packages.
