EDUCATION

Bachelor of Science in Electrical Engineering

Electrical Engineering

Mapua University

2013 - 2018

Manila, PH

SKILLS

- AutoCAD Electrical
- ETAP
- Load Flow Analysis
- BIM Coordination
- PEC 2017
- Short Circuit Studies

WORK EXPERIENCE

Electrical Design Engineer

Integrated Design Associates

March 2021 - current Makati, PH

- Designed electrical systems for 7 commercial and mixed-use buildings in Metro Manila.
- Prepared short circuit and load flow studies for medium voltage distribution systems.
- Coordinated with BIM team producing 3D electrical models for 4 major building projects.

Electrical Engineer

Robinsons Land Corporation

July 2018 - February 2021 Pasig, PH

- Managed electrical design and construction supervision for 3 mall expansion projects.
- Conducted energy audits recommending retrofits saving PHP 1.8M annually per facility.
- Reviewed electrical contractor submittals and shop drawings for 5 concurrent projects.

Electrical Engineering Intern

Meralco

January 2018 - May 2018 Ortigas, PH

- Assisted in reviewing electrical building permit applications for compliance with PEC.
- Observed transformer installation and energization procedures for 2 new service connections.
- Compiled load data for the annual Meralco distribution network planning study.
