EDUCATION

B.S. Agricultural Engineering
Agricultural Engineering
Central Luzon State University
2013 - 2018
Nueva Ecija, PH

SKILLS

- Irrigation Design
- Farm Machinery
- Post-Harvest Technology
- GIS, Hydrology
- Soil Mechanics

WORK EXPERIENCE

Agricultural Engineer

National Irrigation Administration

Mar 2021 - current Nueva Ecija, PH

- Designed and supervised construction of 3 small-scale irrigation systems benefiting 1,200 hectares.
- Conducted hydraulic design review for 5 communal irrigation rehabilitation projects.
- Trained 80+ farmer beneficiaries on proper irrigation water management techniques.

Farm Machinery Engineer

John Deere Philippines

Jul 2018 - Feb 2021 Manila, PH

- Provided technical support and training for rice combine harvesters across Luzon dealerships.
- Conducted field demonstrations for 200+ farmers increasing adoption of mechanized harvesting.
- Reduced machinery warranty claims by 19% through improved pre-delivery inspection protocols.

Agricultural Engineering Intern

Philippine Rice Research Institute

Jan 2018 - May 2018 Muñoz, Nueva Ecija, PH

- Assisted in testing prototype rice transplanting machine under field conditions.
- Collected and analyzed soil moisture data for 3 experimental paddy field plots.
- Documented equipment performance metrics for inclusion in research publications.
