JOSE MIGUEL AQUINO

Instrumentation Engineer

jmaquino@email.com (63) 948-121-3456 Batangas, PH

WORK EXPERIENCE

Senior Instrumentation Engineer

Pilipinas Shell Petroleum

February 2021 - current Tabangao, Batangas, PH

- Calibrated and maintained 300+ field instruments including pressure, temperature, and flow meters.
- Led instrument loop checking for 2 new process units during plant turnaround activities.
- Reduced instrument-related process trips by 28% through predictive maintenance implementation.

Instrumentation Engineer

First Philec Solar Corporation

July 2018 - January 2021 Laguna, PH

- Designed instrumentation and control systems for 3 solar farm monitoring installations.
- Configured DCS and SCADA systems for real-time plant performance tracking.
- Prepared instrument data sheets and loop diagrams for 4 expansion projects.

Instrumentation Engineering Intern

Petron Corporation

January 2018 - May 2018 Batangas, PH

- Assisted in routine calibration of pressure transmitters and control valves in the refinery.
- Observed installation and commissioning of new flowmeters in the crude distillation unit.

EDUCATION

Bachelor of Science of Electronics and Communications Engineering

Electronics and Communications Engineering

Batangas State University

2013 - 2018

Batangas, PH

SKILLS

- SCADA Systems
- DCS Configuration
- Loop Calibration
- P&ID Reading
- Fieldbus Protocols
- ISA Standards
