LENA BAUTISTA

Chemical Engineer

CONTACT

lbautista@email.com
(63) 929-222-3344
Batangas City, PH

EDUCATION

B.S. Chemical Engineering
Chemical Engineering
Batangas State University
2014 - 2019
Batangas, PH

SKILLS

- Process Simulation
- Aspen HYSYS
- HAZOP
- Mass and Energy Balance
- Quality Control
- GMP

WORK EXPERIENCE

Process Engineer

Shell Philippines Exploration

Feb 2022 - current Malampaya, PH

- Optimized refinery distillation column operations, increasing product yield by 8%.
- Conducted HAZOP studies for 3 new process units ensuring regulatory compliance.
- Reduced process downtime by 20% through real-time monitoring system improvements.

Chemical Engineer

Unilab Inc.

Jul 2019 - Jan 2022 Mandaluyong, PH

- Developed and validated 12 pharmaceutical formulations for tablet and capsule production.
- Ensured GMP compliance across 4 production lines during FDA audit cycles.
- Reduced batch rejection rate from 4.2% to 1.1% through process parameter optimization.

Process Engineering Intern

Petron Corporation

Jan 2019 - May 2019 Batangas, PH

- Assisted in mass and energy balance calculations for crude oil distillation units.
- Observed and documented safety protocols for high-pressure vessel operations.
- Compiled monthly process performance reports for engineering supervisors.
