Calamba, Laguna, PH

EDUCATION

B.S. Mechanical Engineering
Mechanical Engineering
University of the Philippines Los Baños
2013 - 2018
Laguna, PH

SKILLS

- AutoCAD
- SolidWorks
- ANSYS
- Thermodynamics
- HVAC Design
- Fluid Mechanics

WORK EXPERIENCE

Mechanical Engineer

Toyota Motor Philippines

Mar 2021 - current Santa Rosa, Laguna, PH

- Designed and optimized cooling system components reducing engine thermal losses by 15%.
- Led preventive maintenance program for 40+ CNC machines, achieving 98% uptime.
- Collaborated with Japanese engineers on 2 new model production line setups.

Mechanical Engineer

Meralco Industrial Engineering Services

Jun 2018 - Feb 2021 Pasig, PH

- Designed HVAC systems for 5 commercial buildings totaling 120,000 sqm floor area.
- Conducted energy audits identifying savings of PHP 3.2M annually across 3 facilities.
- Prepared mechanical engineering drawings reviewed and approved by PRC-licensed engineers.

Engineering Intern

San Miguel Corporation

Jan 2018 - May 2018 Mandaluyong, PH

- Assisted in plant maintenance scheduling for 6 bottling production lines.
- Monitored steam and compressed air system performance across the main production facility.
- Documented equipment failure logs used for predictive maintenance planning.
