EDUCATION

Bachelor of Science in Civil Engineering

Civil Engineering

University of Santo Tomas

2013 - 2018

Manila, PH

SKILLS

- Geotechnical Monitoring
- Inclinometer
- Piezometer
- Settlement Analysis
- GeoStudio
- Data Telemetry

WORK EXPERIENCE

Geotechnical Instrumentation Engineer

Ove Arup Philippines

March 2021 - current Makati, PH

- Designed geotechnical instrumentation systems for 4 deep excavation projects in Metro Manila.
- Monitored inclinometer, piezometer, and settlement data for 3 high-rise foundation projects.
- Prepared geotechnical monitoring reports and threshold alert systems for 6 active projects.

Ground Engineering Specialist

EEI Corporation

July 2018 - February 2021 Quezon City, PH

- Supervised installation of 200+ geotechnical instruments including inclinometers and load cells.
- Analyzed monitoring data identifying potential slope instability risks during 2 tunnel excavations.
- Coordinated with structural designers on foundation performance verification for 4 towers.

Geotechnical Instrumentation Intern

PHIVOLCS

January 2018 - May 2018 Quezon City, PH

- Assisted in installation of ground movement monitoring sensors along 3 active fault traces.
- Observed data acquisition and telemetry system setup for a landslide monitoring network.
- Compiled displacement monitoring records for the PHIVOLCS geohazard database.
