WORK EXPERIENCE

IT Support Technician

Blue Cross Blue Shield of Michigan

August 2023 - current Detroit, MI

- Resolved employee technical issues involving workstation setup, VPN connectivity, and enterprise software access, maintaining 93% first-contact resolution for internal support tickets.
- Diagnosed system and network configuration problems across Windows environments, ***lowering average troubleshooting time by 21 minutes*** per incident.
- Maintained internal documentation and troubleshooting guides supporting 6 administrative departments using healthcare operations systems.
- Coordinated ticket triage and escalation through the IT service desk, managing ~48 service requests weekly while meeting response SLAs.

Technical Support Representative

Comcast

December 2020 - June 2023 Ann Arbor, MI

- Assisted residential customers with internet, cable, and router troubleshooting, ***supporting 110+ customer interactions weekly*** through phone-based technical support.
- Diagnosed modem connectivity and network configuration issues, shortening average resolution time by 16 minutes per case.
- Guided customers through service configuration and device setup procedures, improving post-call satisfaction scores to 4.4 / 5.
- Documented 15+ recurring connectivity issues and created escalation procedures, leading to quarterly reviewed knowledge base articles that improved user support.

PROJECTS

Developer

StudySpot

2018 - 2020

- Designed a cross-platform mobile interface using React, improving usability and ***contributing to 2× growth in monthly app downloads*** within 7 months.
- Implemented version control and collaboration workflows using Subversion, supporting code contributions across 4 application modules.
- Established secure data transmission practices with encryption and protected API endpoints, maintaining zero reported security incidents during testing.
- Integrated user analytics pipelines through Microsoft Azure, enabling weekly behavioral reporting that informed feature improvements.

CAREER OBJECTIVE

A seasoned IT professional passionate about software development, seeking a junior software engineer role at Bosch. Eager to apply my experience with Eclipse and C++ to create high-quality software products that contribute to the company's engineering efforts.
