Pasig, PH

EDUCATION

M.S. Data Science
Data Science
De La Salle University
2018 - 2020
Manila, PH

SKILLS

- Python
- TensorFlow
- PyTorch
- MLflow
- Hugging Face
- GCP

WORK EXPERIENCE

ML Engineer

Thinking Machines Data Science

Mar 2022 - current Taguig, PH

- Deployed fraud detection model achieving 97.3% precision on real-time transactions.
- Built NLP pipeline for a government client processing 500k+ documents monthly.
- Reduced model inference latency by 52% via ONNX optimization and batch processing.

Research Assistant – ML Lab

De La Salle University

Jun 2018 - Jun 2020 Manila, PH

- Co-authored CNN image classification research published at a regional IEEE conference.
- Benchmarked 6 deep learning architectures on medical imaging datasets.
- Maintained GPU cluster used by 20+ graduate students for model training experiments.

Data Scientist

PayMaya Philippines

Jul 2020 - Feb 2022 Taguig, PH

- Developed churn prediction model improving campaign targeting accuracy by 31%.
- Automated feature engineering, cutting retraining time from 6 hours to 45 minutes.
- Presented monthly model performance reports to C-level stakeholders.
