WORK EXPERIENCE

Software Engineer

Apple

Chicago, IL | 2024 - current

- Engineered backend services supporting device synchronization and cloud storage features, ***enabling processing of ~20k user data events daily*** across distributed systems.
- Optimized service-layer performance in Swift, lowering average API response latency by 38% during peak iCloud activity periods.
- Implemented automated reliability checks across 9 platform modules, strengthening data consistency for device backup and synchronization workflows.
- Collaborated with a team of 5 product managers and 3 infrastructure engineers to implement specific system improvements every two weeks.

Frontend Developer

Google

Chicago, IL | 2021 - 2024

- Developed interactive user interface components for web-based productivity tools, enabling display of 150+ real-time data elements within collaborative dashboards.
- Refactored frontend rendering logic using JavaScript / React, ***reducing average page load time by 2.1 seconds*** for high-traffic user sessions.
- Integrated RESTful APIs connecting UI dashboards with 4 backend data services used for analytics and reporting features.
- Partnered with designers and backend engineers to ship interface enhancements that raised internal usability evaluation scores to 4.6 / 5.

Help Desk Technician

Walgreens

Evanston, IL | 2019 - 2021

- Resolved employee technical issues involving POS systems, workstation setup, and network connectivity, ***maintaining 93% first-contact resolution*** for support tickets.
- Diagnosed recurring hardware and software issues across store systems, reducing troubleshooting time by 16 minutes per incident.
- Maintained internal troubleshooting documentation used by 7 support team members during onboarding and daily operations.
- Assisted store staff with account access and system configuration requests, managing ~45 service tickets weekly while meeting SLA response targets.

SKILLS

- Swift
- JavaScript / React
- REST API Integration
- Technical Troubleshooting
- Cross-Functional Collaboration
- Analytical Problem Solving
- Customer Communication
- Technical Documentation

EDUCATION

Bachelor of Science

Computer Science

Northwestern University

2015 - 2019

Evanston, IL
