ARTURO BELMONTE

Robotics Engineer

CONTACT

abelmonte@email.com
(63) 979-322-3344
Laguna, PH

EDUCATION

Bachelor of Science in Mechatronics Engineering

Mechatronics Engineering

Mapua University

2013 - 2018

Manila, PH

SKILLS

- ROS
- KUKA Programming
- Fanuc
- Collaborative Robots
-
- Computer Vision
- Python

WORK EXPERIENCE

Robotics Engineer

Yazaki Torres Manufacturing

March 2021 - current Cavite, PH

- Programmed and commissioned 10 collaborative robots for wire harness assembly operations.
- Developed vision-guided robotic pick-and-place system reducing assembly errors by 42%.
- Trained 15 technicians on robot operation, programming, and basic maintenance procedures.

Automation and Robotics Engineer

Integrated Micro-Electronics Inc.

July 2018 - February 2021 Laguna, PH

- Integrated KUKA robotic arms into 3 semiconductor die bonding production lines.
- Developed robot offline programming simulations reducing physical setup time by 50%.
- Resolved 100+ robot alarm conditions monthly maintaining high production line availability.

Robotics Engineering Intern

Department of Science and Technology

January 2018 - May 2018 Taguig, PH

- Compiled technical documentation for 2 DOST-funded robotics research projects.
- Observed ROS-based navigation system calibration for an autonomous mobile platform.
- Assisted in assembly and testing of prototype agricultural harvesting robot.
