Tarlac, PH

EDUCATION

Bachelor of Science in Electrical Engineering

Electrical Engineering

Tarlac State University

2014 - 2019

Tarlac, PH

SKILLS

- PVsyst
- Solar PV Design
- AutoCAD Electrical
- Grid Interconnection
- Energy Yield Analysis
- EPIRA

WORK EXPERIENCE

Solar PV Engineer

Solar Philippines

March 2022 - current Tarlac, PH

- Designed utility-scale solar PV systems for 3 ground-mounted farms totaling 85MW capacity.
- Performed energy yield assessments using PVsyst for 6 proposed solar projects nationwide.
- Supervised installation and commissioning of 40MW solar farm in Tarlac completed on schedule.

Renewable Energy Engineer

Alternergy Wind One Corporation

June 2019 - February 2022 Makati, PH

- Conducted site assessments and resource analysis for 4 solar and wind energy project sites.
- Prepared EPIRA-compliant interconnection study submissions to the National Grid Corporation.
- Coordinated with EPC contractors during construction of a 54MW wind farm in Burgos, Ilocos.

Solar Engineering Intern

Department of Energy – Renewable Energy Management Bureau

January 2019 - May 2019 Taguig, PH

- Assisted in evaluating renewable energy service contract applications for solar projects.
- Compiled solar irradiance and wind speed data for the Philippine Renewable Energy Atlas.
- Supported preparation of technical annexes for the National Renewable Energy Program.
