EDUCATION

B.S. Sanitary Engineering
Sanitary Engineering
University of the Philippines Visayas
2014 - 2019
Iloilo, PH

SKILLS

- Sewage Systems
- water Treatment Design
- Hydraulic Engineering
- DENR Standards
- Hydraulic Modeling
- WaterCAD

WORK EXPERIENCE

Sanitary Engineer

Metropolitan Waterworks and Sewerage System

Feb 2022 - current Manila, PH

- Designed and commissioned water distribution network extensions serving 8,000 new households.
- Reduced non-revenue water losses by 14% through pressure zone management improvements.
- Prepared engineering reports for 3 sewerage rehabilitation projects worth PHP 120M combined.

Sanitary Engineer

Iloilo City Government – Engineering Office

Jul 2019 - Jan 2022 Iloilo, PH

- Supervised construction of 4 communal sanitation facilities in flood-prone barangays.
- Conducted water quality testing across 20 public water supply points quarterly.
- Assisted in designing drainage master plan for the Iloilo City urban core expansion zone.

Sanitary Engineering Intern

Local Water Utilities Administration

Jan 2019 - May 2019 Quezon City, PH

- Assisted in hydraulic modeling of water distribution networks for 2 rural water systems.
- Observed water treatment plant operations including coagulation, filtration, and chlorination.
- Compiled water quality compliance reports for 5 local water districts in Western Visayas.
