WORK EXPERIENCE

Assistant Mechanical Engineer

Parsons Corporation

2020 - current Pasadena, CA

- Implemented new process workflows in Microsoft Project, optimizing project timelines and decreasing average delivery times by three days
- Executed advanced machining strategies using Mastercam, ***reducing machining time by 18% and increasing precision by 0.02mm***
- Managed the development of 3D CAD models using SolidWorks, reducing design errors by 14% and achieving a 9% faster project completion time
- Supervised the production of detailed technical drawings and design modifications using Autodesk AutoCAD, cutting revision times by 28 hours

Mechanical Engineering Aide

Tetra Tech

2017 - 2020 Pasadena, CA

- Evaluated mechanical systems using ANSYS CFD simulations, **boosting thermal efficiency by 11%, saving $12,084 in annual cooling costs**
- Collaborated on manufacturing planning and tooling design with Siemens NX, improving CNC machining efficiency and reducing setup times by 21% through optimized workflow
- Monitored experimental data using MATLAB to get critical insights, surging data analysis accuracy by 22% and saving eight hours of analysis time per week
- Designed and built detailed prototypes using Stratasys FDM Printers, reducing prototyping time from two weeks to six days

Engineering Intern

Jet Propulsion Laboratory

2016 - 2017 Pasadena, CA

- Organized and cataloged engineering data in Siemens Teamcenter, reducing data retrieval time by 11 minutes per task
- Enhanced the accuracy of engineering reports by processing data with Microsoft Excel, reducing reporting errors to fewer than four per report
- Built toolpath simulations with Mastercam, **helping create precise machining instructions that reduced machine downtime by three hours per month**
- Supported resource allocation by updating and tracking assignments in Microsoft Project, resolving over-allocations and balancing workloads for a team of four engineers

EDUCATION

Bachelor of Science
Mechanical Engineering

California Institute of Technology

2013 - 2017

Pasadena, CA

SKILLS

- Autodesk AutoCAD
- ANSYS
- Mastercam
- Siemens Teamcenter
- SolidWorks
- MATLAB
- Microsoft Excel
- Siemens NX
- Microsoft Project
- Stratasys FDM Printers

CERTIFICATIONS/ LICENSES

- PE license
