EDUCATION

B.S. Mechatronics Engineering
Mechatronics Engineering
Mapua University
2015 - 2019
Manila, PH

SKILLS

- PLC Programming
- Robotics
- SCADA
- Arduino
- ROS
- SolidWorks
- Industrial Automation

WORK EXPERIENCE

Mechatronics Engineer

Panasonic Manufacturing Philippines

Feb 2022 - current Laguna, PH

- Designed and deployed automated inspection system reducing defect escape rate by 35%.
- Programmed 6 Fanuc robotic arms for PCB assembly line integration.
- Reduced manual labor requirements by 40% through conveyor automation redesign.

Automation Engineer

Integrated Micro-Electronics Inc.

Jun 2019 - Jan 2022 Laguna, PH

- Developed PLC ladder logic programs for 4 semiconductor equipment automation projects.
- Troubleshot and resolved 200+ equipment alarms monthly across the production floor.
- Collaborated with Japanese engineers on vision system integration for SMT inspection.

Mechatronics Engineering Intern

Yazaki Torres Manufacturing

Jan 2019 - May 2019 Cavite, PH

- Assisted in installation and commissioning of a new wire cutting and crimping machine.
- Observed PLC programming and HMI configuration procedures for production equipment.
- Documented equipment technical manuals and operating procedures for operator training.
