San Pedro, Laguna, PH

EDUCATION

B.S. Materials Science and Engineering

Materials Science and Engineering

University of the Philippines Diliman

2015 - 2019

Quezon City, PH

SKILLS

- Metallurgical Testing
- Failure Analysis
- SEM/EDS Analysis
- Heat Treatment
- ASTM Standards

WORK EXPERIENCE

Materials Engineer

Integrated Steel Manufacturing

Mar 2022 - current Laguna, PH

- Conducted metallurgical failure analysis on 25+ returned components identifying root causes.
- Optimized heat treatment parameters reducing product hardness variability by 30%.
- Implemented incoming raw material inspection protocol cutting defect rate by 22%.

Quality Engineer

Texas Instruments Philippines

Jun 2019 - Feb 2022 Baguio, PH

- Managed incoming quality control for semiconductor substrate materials across 3 product lines.
- Led corrective action investigations for 10 major supplier non-conformances annually.
- Developed material qualification test plans for 5 new component introductions per year.

Materials Engineering Intern

Philippine Iron and Steel Institute

Jan 2019 - May 2019 Quezon City, PH

- Performed tensile, hardness, and impact tests on steel samples per ASTM standards.
- Assisted in preparation of microstructural specimens for SEM and optical microscopy analysis.
- Compiled testing data for industry benchmarking reports on local steel product quality.
