EDUCATION

Bachelor of Science in Nuclear Engineering

Nuclear Engineering

University of the Philippines Diliman

2014 - 2019

Quezon City, PH

SKILLS

- Radiation Safety
- IAEA Standards
- Nuclear Instrumentation Systems
- PNRI Regulations
- Reactor Operations

WORK EXPERIENCE

Instrumentation and Control Engineer

Philippine Nuclear Research Institute

February 2022 - current Quezon City, PH

- Maintained and calibrated nuclear instrumentation systems at the Philippine Research Reactor.
- Developed radiation monitoring network protocols for 3 nuclear facility safety upgrades.
- Prepared technical documentation for IAEA safeguards inspection activities.

Radiation Safety Officer

St. Luke's Medical Center

June 2019 - January 2022 Quezon City, PH

- Managed radiation safety program covering 40+ radioactive sources used in nuclear medicine.
- Conducted quarterly radiation dose monitoring for 80+ radiation workers in the hospital.
- Ensured compliance with PNRI regulations across all hospital radiation-emitting equipment.

Nuclear Engineering Intern

Philippine Nuclear Research Institute

January 2019 - May 2019 Quezon City, PH

- Observed reactor operations and control room procedures at the Philippine Research Reactor.
- Assisted in neutron activation analysis sample preparation for environmental monitoring.
- Compiled radiation dose records for the institute's annual IAEA submission.
