EDUCATION

Bachelor of Science in Electrical Engineering

Electrical Engineering

University of the Philippines Diliman

2013 - 2018

Quezon City, PH

SKILLS

- Relay Coordination
- Power System Protection
- ETAP
- ATP/EMTP
- IEC 61850
- Substation Design

WORK EXPERIENCE

Protection and Control Engineer

National Grid Corporation of the Philippines

February 2021 - current Quezon City, PH

- Designed protection schemes for 230kV and 500kV transmission substations in Luzon grid.
- Calculated relay coordination settings for 15 new substation protection systems.
- Led factory acceptance testing of digital protection relays for 4 substation projects.

Substation Engineer

Aboitiz Power

June 2018 - January 2021 Taguig, PH

- Maintained and tested protection relays for 6 distribution substations in Visayas grid.
- Performed power quality monitoring and harmonic analysis across 10 industrial customer connections.
- Prepared substation single-line diagrams and relay setting schedules for annual regulatory submission.

Protection Engineering Intern

Manila Electric Company

January 2018 - May 2018 Ortigas, PH

- Assisted in secondary injection testing of overcurrent relays at 3 Meralco substations.
- Observed transformer differential protection commissioning activities in Novaliches substation.
- Compiled relay test records for the annual protection system maintenance compliance report.
