EDUCATION

Bachelor of Science in Civil Engineering

Civil Engineering

University of Santo Tomas

2014 - 2019

Manila, PH

SKILLS

- Tekla Structures
- AISC 360
- Staad Pro
- Steel Connection Design
- NSCP
- Fabrication Drawing Review

WORK EXPERIENCE

Structural Steel Engineer

SteelAsia Manufacturing

April 2022 - current Quezon City, PH

- Designed steel connection details and shop drawings for 6 industrial building projects.
- Performed structural analysis of steel frames using STAAD.Pro for 4 warehouse projects.
- Reviewed fabrication drawings ensuring compliance with AISC 360 and NSCP standards.

Steel Detailing Engineer

Torres Steel Industries

August 2019 - March 2022 Manila, PH

- Produced 500+ steel fabrication and erection drawings using Tekla Structures software.
- Coordinated with site erection teams resolving 30+ design-field conflicts during construction.
- Prepared material lists and bolt schedules for 5 industrial steel structure projects.

Structural Steel Intern

EEI Corporation

January 2019 - May 2019 Quezon City, PH

- Assisted in quality inspection of fabricated steel members before delivery to construction sites.
- Observed structural steel erection and bolting operations for an industrial plant project.
- Compiled weld inspection records and non-conformance reports for 2 fabrication projects.
