Gideon Marcial

Embedded Systems Engineer

gideon.marcial@email.com (63) 917-882-4419 Laguna, Philippines

WORK EXPERIENCE

MicroCore Technologies – Embedded Systems Engineer Laguna, Philippines

2021 - current

- Developed embedded software solutions for industrial automation and IoT devices using C and C++.
- Integrated sensors, communication modules, and microcontrollers for real-time system operations.
- Performed debugging, testing, and optimization of embedded hardware and firmware systems.

CircuitWave Solutions – Electronics Systems Associate Cavite, Philippines

2018 - 2020

- Assisted in configuring microcontroller-based systems and hardware prototypes.
- Maintained technical documentation and testing procedures for embedded devices.
- : Supported troubleshooting and hardware validation activities.

EDUCATION

Technological Institute of the Philippines – Bachelor of Science in Computer Science, Computer Science Manila, Philippines

2014 - 2018

SKILLS

- Embedded C
- C++
- Microcontrollers
- UART
- SPI
- IoT Systems
- Git
