Work Experience

CircuitLine Electronics – PCB Design Engineer — Batangas, Philippines

2021 - current

- Designed multilayer PCB layouts for embedded and industrial electronic devices.
- Conducted signal integrity checks and component placement optimization for hardware projects.
- Collaborated with hardware and manufacturing teams during prototyping and production phases.

ElectroPrint Solutions – PCB Layout Associate — Lipa, Philippines

2018 - 2020

- Assisted in creating PCB layouts and schematic updates using CAD tools.
- Maintained manufacturing files and technical documentation for production teams.
- Supported prototype assembly and testing activities.

Education

Batangas State University – Bachelor of Science in Computer Science, Computer Science — Batangas, Philippines

2019 - 2023

Skills

- PCB Design
- Altium Designer
- Circuit Schematics
- Hardware Testing
- Signal Integrity
- CAD Tools
- Git
