📞 (63) 918-553-1184

📍 Quezon City, Philippines

🎓 EDUCATION

Bachelor of Science in Electronics Engineering

Digital Signal Processing

University of the Philippines Diliman

📅 2015 - 2019

📍 Quezon City, Philippines

⭐ SKILLS

- Signal Analysis
- Digital Signal Processing (DSP)
- MATLAB
- Filtering Techniques
- Wireless Communication
- Algorithm Development
- Data Analysis
- Simulation Tools

📓 SUMMARY

👤 WORK EXPERIENCE

Signal Processing Engineer

DOST Advanced Science and Technology Institute

📅 Jan 2021 - Apr 2026 📍 Philippines

- Developed digital signal processing algorithms for communication and sensor applications.
- Conducted data analysis and filtering for audio and wireless signal systems.
- Improved signal accuracy through optimization of processing techniques and simulations.

Research Engineering Assistant

PLDT Innovation Laboratory

📅 Jul 2019 - Dec 2020 📍 Makati, Philippines

- Assisted in testing and validating signal processing models.
- Prepared technical documentation and simulation reports.
- Supported laboratory experiments involving communication systems.
