EDUCATION

Bachelor of Science in Mechanical Engineering

Mechanical Engineering

Cebu Institute of Technology University

2013 - 2017

Cebu, Philippines

SKILLS

SolidWorks
3D Modeling
Sheet Metal Design
Technical Drawings
GD&T
Product Development
BOM Management

SUMMARY

SolidWorks Design Engineer with experience in 3D mechanical design, technical drafting, and prototype development. Skilled in parametric modeling, manufacturability improvements, and engineering documentation. Strong understanding of mechanical components and production processes.

WORK EXPERIENCE

SolidWorks Design Engineer

Integrated Design Systems

Feb 2020 - current / Cebu City, Philippines

- Designed 3D mechanical assemblies and sheet metal components using SolidWorks.
- Reduced prototype development time by 25% through parametric modeling techniques.
- Collaborated with manufacturing teams to improve product manufacturability.

CAD Design Engineer

Ionics EMS Inc.

Jul 2017 - Jan 2020 / Laguna, Philippines

- Prepared technical drawings and BOM documentation for production.
- Assisted in prototype testing and engineering validation activities.
- Maintained engineering change documentation and revision control.
