ANGELA VILLANUEVA

Embedded Electronics Engineer

@ CONTACT

✉ avillanueva@email.com

📞 (63) 918-774-1186

📍 Laguna, Philippines

🎓 EDUCATION

Bachelor of Science in Electronics Engineering

Embedded Systems Engineering

Mapúa University

📅 2015 - 2019

📍 Manila, Philippines

⭐ SKILLS

- C Programming
- Embedded C programming
- Microcontroller programming
- Arduino
- Firmware development
- Circuit design
- Hardware Integration
- PCB design and layout

📓 SUMMARY

Signal Processing Engineer experienced in DSP algorithm development, wireless communication systems, and signal analysis. Skilled in optimizing signal quality and developing data processing solutions.

👤 WORK EXPERIENCE

Embedded Electronics Engineer

Texas Instruments Philippines

📅 Jan 2021 - Apr 2026 📍 Baguio, Philippines

- Developed embedded systems and firmware for consumer electronics applications.
- Conducted debugging and testing of microcontroller-based hardware systems.
- Improved device performance through firmware optimization and hardware integration.

Embedded Systems Intern

Analog Devices Philippines

📅 Jun 2019 - Dec 2020 📍 Cavite, Philippines

- Assisted in embedded software testing and circuit validation activities.
- Maintained technical documentation for hardware and firmware projects.
- Supported engineers during prototype development and troubleshooting tasks.
