📞 (63) 917-667-2211

📍 Batangas, Philippines

🎓 EDUCATION

Bachelor of Science in Mechanical Engineering

Mechanical Engineering

Technological University of the Philippines

🗓 2013 - 2017

📍 Manila, Philippines

★ SKILLS

- PDMS
- AutoCAD Plant 3D
- Piping Layout
- Stress Analysis
- Process Piping
- Isometric Drawings
- Material Specification

📋 SUMMARY

Detail-oriented Piping Design Engineer experienced in refinery and industrial plant projects. Skilled in piping layouts, stress analysis, and multidisciplinary coordination. Adept in PDMS and AutoCAD Plant 3D with strong understanding of process and safety standards.

👤 WORK EXPERIENCE

Piping Design Engineer

JGC Philippines

🗓 Mar 2020 - current 📍 Batangas, Philippines

- ✅ Designed piping layouts for refinery and petrochemical projects using PDMS.
- ⛔ Improved piping routing efficiency reducing material waste by 15%.
- ⛔ Coordinated with structural and process engineers during project execution.

Junior Piping Engineer

Fluor Daniel Inc. Philippines

🗓 Jul 2017 - Feb 2020 📍 Munitinlupa, Philippines

- ⛔ Prepared isometric drawings and pipe support details for industrial facilities.
- ⛔ Assisted in stress analysis and piping material specification reviews.
- ⛔ Supported QA inspections and field verification activities.
