CARLO MENDOZA

Tooling Engineer

✉ cmendoza@email.com
📞 (63) 918-245-7781
📍 Laguna, Philippines

SUMMARY

Experienced Tooling Engineer with strong knowledge in tooling design, CNC machining, and production optimization. Skilled in improving manufacturing efficiency, reducing downtime, and collaborating with cross-functional engineering teams to support high-volume industrial operations.

WORK EXPERIENCE

Tooling Engineer

Toyota Motor Philippines

🗓 Feb 2021 - Apr 2026 📍 Santa Rosa, Philippines

- Designed and optimized production tooling that improved assembly efficiency by 28%.
- Reduced tooling downtime by implementing preventive maintenance schedules across 4 production lines.
- Collaborated with CNC machinists and design engineers to develop precision tooling for automotive components.

Junior Tooling Engineer

Ionics EMS Inc.

🗓 Jun 2019 - Jan 2021 📍 Cavite, Philippines

- Assisted in fixture and jig development for electronics manufacturing operations.
- Improved tool calibration accuracy resulting in 18% fewer product defects.
- Prepared CAD drawings and tooling documentation for manufacturing teams.

EDUCATION

Bachelor of Science in Mechanical Engineering

Mechanical Engineering

Mapúa University

🗓 2015 - 2019

📍 Manila, Philippines

SKILLS

- AutoCAD
- SolidWorks
- CNC Programming
- Tool Design
- Preventive Maintenance
- Lean Manufacturing
- GD&T
