(63) 919-772-6614

Batangas City, Philippines

🎓 EDUCATION

Bachelor of Science in Mechatronics Engineering

Mechatronics Engineering

Technological University of the Philippines

2015 - 2019

Manila, Philippines

★ SKILLS

- PLC Programming
- CAD Software (SolidWorks, AutoCAD)
- Mechatronics
- Automation Systems
- Sensor Technology
- Embedded Systems
- Control Systems
- Technical Troubleshooting

📰 SUMMARY

Edge Computing Engineer experienced in distributed computing, IoT systems, and low-latency infrastructure solutions. Skilled in deploying scalable edge platforms and integrating cloud and network technologies.

👤 WORK EXPERIENCE

Mechatronics Engineer

Samsung Electro-Mechanics Philippines

📅 Feb 2021 - Apr 2026 📍 Laguna, Philippines

- Designed and maintained automated electromechanical systems for manufacturing equipment.
- Improved machine efficiency by integrating sensor-based monitoring solutions.
- Conducted troubleshooting for mechanical, electrical, and control systems.

Junior Automation Engineer

Canon Business Machines Philippines

📅 Jul 2019 - Jan 2021 📍 Batangas, Philippines

- Assisted in equipment calibration and control system testing.
- Supported preventive maintenance activities for automated machinery.
- Prepared technical documentation and operational reports.
