Eric Bautista

High-Voltage Engineer

ebautista@email.com (63) 917-111-2223 Laguna, Philippines

High-voltage engineer specializing in transmission systems, insulation diagnostics, and grid reliability. Experienced in managing high-voltage infrastructure and ensuring safe and stable power delivery across large-scale networks.

WORK EXPERIENCE

National Grid Corporation of the Philippines - High Voltage Engineer — Santa Rosa, Philippines

Jan 2019 - Jan 2026

- Managed 230kV–500kV transmission line maintenance.
- Conducted insulation testing and surge analysis.
- Improved grid reliability through preventive maintenance scheduling.

Power Sector Assets and Liabilities Management - Electrical Engineer — Manila, Philippines

Jan 2017 - Dec 2018

- Assisted in transmission asset evaluation.
- Performed high-voltage equipment inspections.
- Supported system reliability studies.

EDUCATION

University of the Philippines - Bachelor of Science in Electrical Engineering, Electrical Engineering — Quezon City, Philippines

2013 - 2017

SKILLS

- High Voltage Systems
- Transmission Lines
- Insulation Testing
- Power Systems
- ETAP
- Safety Standards
- Grid Reliability
