Nueva Ecija, Philippines

🎓 EDUCATION

Bachelor of Science in Agricultural and Biosystems Engineering

Agricultural Engineering

Central Luzon State University

2015 - 2019

Nueva Ecija, Philippines

★ SKILLS

- Irrigation Design
- Farm Mechanization
- AutoCAD
- Sustainable Agriculture Practices
- Post-Harvest Technology
- Technical Reporting
- Equipment Testing
- Project Planning

📰 SUMMARY

Agricultural and Biosystems Engineer with experience in irrigation systems, farm mechanization, and sustainable agricultural technologies. Skilled in engineering design, field operations, and improving agricultural productivity through innovative solutions.

👤 WORK EXPERIENCE

Agricultural Engineer

Department of Agriculture

📅 Feb 2021 - Apr 2026 📍 Quezon City, Philippines

- Designed irrigation and post-harvest systems for regional agricultural projects.
- Improved farm mechanization efficiency by introducing automated drying systems.
- Conducted field inspections and prepared engineering feasibility studies.

Biosystems Engineering Assistant

PhilMech

📅 Jun 2019 - Jan 2021 📍 Science City of Muñoz, Philippines

- Assisted in testing agricultural machinery and equipment performance.
- Prepared technical drawings and equipment specifications.
- Coordinated research activities related to sustainable farming technologies.
