MARCO LIM

Instrumentation & Control Engineer

✉ mlim@email.com 📞 (63) 917-666-7777 📍 Batangas, Philippines

WORK EXPERIENCE

I&C Engineer

Shell Philippines

📅 Jan 2019 - Jan 2026 📍 Batangas, Philippines

- Designed control systems for refinery instrumentation networks.
- Calibrated sensors and transmitters for process accuracy.
- Improved process efficiency by 15% via control tuning.

Junior Instrumentation Engineer

JGC Philippines

📅 Jan 2017 - Dec 2018 📍 Makati, Philippines

- Assisted in P&ID development and instrumentation design.
- Performed loop checking and commissioning activities.
- Supported field calibration tasks.

SUMMARY

Instrumentation and control engineer specializing in process automation and industrial control systems. Experienced in refining and industrial environments ensuring accuracy, efficiency, and operational stability.

EDUCATION

Bachelor of Science in Electronics Engineering

Electronics Engineering

De La Salle University

📅 2012 - 2016

📍 Manila, Philippines

SKILLS

- Process Control
- Instrumentation
- PLC Systems
- P&ID Design
- Calibration
- DCS Systems
- HART Protocol
