Quezon City, Philippines 📍

Licensed Mechanical Engineer with experience in HVAC system design, installation, and maintenance for commercial and industrial facilities. Skilled in energy optimization, ventilation systems, and project coordination. Strong background in AutoCAD, Revit, and compliance with international HVAC standards.

Work Experience

MDC Mechanical Solutions – HVAC Engineer

Feb 2021 - current — Quezon City, Philippines

- ✅ Designed HVAC systems for commercial buildings exceeding 15,000 sqm floor area.
- ✅ Reduced energy consumption by 18% through optimized chiller and ventilation layouts.
- ⛔ Coordinated with architects and contractors during installation and commissioning phases.

EEI Corporation – HVAC Design Associate

Jun 2018 - Jan 2021 — Pasig, Philippines

- ⛔ Prepared HVAC load calculations and ducting layouts using AutoCAD and Revit.
- ⛔ Assisted in preventive maintenance scheduling for centralized cooling systems.
- ⛔ Conducted site inspections ensuring compliance with ASHRAE standards.

Education

Mapúa University – Bachelor of Science in Mechanical Engineering, Mechanical Engineering

2014 - 2018 — Manila, Philippines

Skills

- HVAC Design
- AutoCAD
- Revit MEP
- Cooling Load Calculation
- Energy Efficiency
- Chiller Systems
- Project Coordination
