EDUCATION

Bachelor of Science in Electronics Engineering
Electronics Engineering
University of San Carlos
📅 2014 - 2018
📍 Cebu City, Philippines

SKILLS

SCADA Systems
PLC Programming
RTU Integration
HMI Design
Modbus Protocol
Industrial Automation
Python

SUMMARY

SCADA engineer experienced in industrial control systems, automation, and real-time monitoring platforms. Skilled in integrating PLC/RTU systems to improve operational efficiency and system reliability.

WORK EXPERIENCE

SCADA Engineer

AboitizPower

Jan 2020 - Jan 2026 / Cebu, Philippines

- Developed SCADA systems for power plant monitoring and control.
- Integrated RTU and PLC systems for real-time data acquisition.
- Improved system uptime by 20% through redundancy design.

Automation Engineer

Schneider Electric Philippines

Jan 2018 - Dec 2019 / Manila, Philippines

- Configured PLC logic for industrial automation systems.
- Supported HMI development and testing.
- Conducted system commissioning and troubleshooting.
