Rica Mendoza

PCB Layout Engineer

Email: rmendoza@email.com **Phone:** (63) 918-441-7735 **Location:** Laguna, Philippines

SUMMARY

Highly skilled and precise PCB Layout Engineer with extensive background in hardware engineering and high-density electronic systems design. Experienced in designing complex multilayer printed circuit boards from schematic capture to manufacturing validation. Proven ability to maximize circuit reliability, minimize cross-talk, and manage multi-layer signal integrity architectures using industry-standard engineering EDA suites.

WORK EXPERIENCE

PCB Layout Engineer

Mar 2021 – Apr 2026

Analog Devices Philippines

Cavite, Philippines

- Designed multilayer PCB layouts for electronic and embedded systems applications.
- Improved circuit reliability through optimized component placement and routing techniques.
- Coordinated with hardware engineers during schematic review and PCB validation.

Electronics Design Assistant

Jun 2019 – Feb 2021

Texas Instruments Philippines

Baguio, Philippines

- Assisted in PCB drafting and component library management.
- Conducted design rule checks and layout verification activities.
- Maintained technical documentation for circuit board projects.

SKILLS

- **Schematic Review**
- **Eagle PCB Design**
- **Altium Designer**
- **Circuit Design**
- **Signal Integrity**
- **Electronic Components**
- **Hardware Debugging**
- **Technical Documentation**

EDUCATION

Bachelor of Science in Electronics Engineering

Electronic Systems Design Specialization

Batangas State University

2015 – 2019

Batangas, Philippines
