# BELLA TREVINO

*WEB DEVELOPER*

## CONTACT

bellatrevino@email.com

(123) 456-7890

Chicago, IL

LinkedIn

## EDUCATION

B.S.

Computer Science

University of Illinois Chicago

2016 - 2020

Chicago, IL

GPA: 3.9

**Awards**

Presidential Scholarship

Cum Laude Society

Dean's List (6/8 semesters)

## SKILLS

### Hard skills

JavaScript (React, Node.js) Python (Django, scikit-learn) SQL (PostgreSQL)

REST API Development

### Soft skills

Cross-Functional Collaboration in Agile Sprints Technical Requirements Gathering from Non-Technical Stakeholders

## CAREER OBJECTIVE

Graduate of computer science with experience working across the full-stack of software development. Looking for a role where I can grow and learn from experienced team members while drawing on project experience I have already successfully executed.

## WORK EXPERIENCE

### Web Developer Intern

Book of the Month

April 2019 - September 2019 / Chicago, IL

- Built an internal book recommendation app in React and Node.js, replacing a manual curation workflow for editorial staff.
- Translated employee feedback into 12 iterative feature updates, cutting the team's monthly book-logging time by 14 hours.
- Partnered with a senior developer and three fellow interns to architect a PostgreSQL-backed search module for catalog filtering.
- Earned recognition as top-performing intern among a cohort of 6 based on delivery quality and initiative.

## PROJECTS

### Social Media Scheduler

Creator

- Designed a Django-and-Node scheduling tool that automated cross-platform posting to Instagram and Twitter for individual users.
- Trained a scikit-learn model on historical engagement data, lifting average post interaction rates by 23% across early adopters.
- Grew the free tool to 517 monthly active users within one semester of releasing it to University of Illinois Chicago students.
- Attracted coverage from 7 regional media outlets, including radio and local TV, spotlighting the app's use of social media APIs.

### Computer Science Club

Co-founder

April 2017 - April 2020

- Pitched the club concept to UIC student government, secured official approval, and recruited a faculty advisor within one month.
- Organized weekly pair-programming sessions where 2-hour blocks paired members on real debugging and algorithm challenges.
