WORK EXPERIENCE

Integration Engineer

Marqeta

2023 - current Oakland, CA

- Implemented payment API integrations for fintech partners, enabling onboarding of 14 card-issuing client programs onto the transaction platform.
- Optimized request validation logic in Java, ***lowering partner sandbox response latency by 37%*** during integration testing cycles.
- Developed automated verification scripts that covered 9 transaction workflow scenarios, improving early detection of integration errors.
- Coordinated technical onboarding sessions with partner engineering teams on a bi-weekly integration cadence.

Software Quality Engineer

Adobe

2017 - 2023 San Francisco, CA

- Designed automated test suites validating creative cloud application services, covering 11 platform feature modules prior to production releases.
- ***Reduced regression testing duration by 44%*** by building automated pipelines using Python across staging environments.
- Implemented structured defect triage practices that improved issue turnaround across 6 product engineering teams.
- Collaborated with developers and product managers to support release readiness on a two-week sprint cadence.

Software Engineer

Uber

2014 - 2017 San Francisco, CA

- Developed backend services supporting ride dispatch and trip lifecycle tracking, ***enabling processing of ~15k ride status events daily*** across regional markets.
- Refactored microservice communication layers in Java, shortening trip update processing time by 18 minutes per data synchronization cycle.
- Integrated RESTful APIs connecting 4 internal mobility services used for pricing, routing, and driver availability.
- Partnered with product and infrastructure teams to deliver platform improvements that raised internal usability scores to 4.6 / 5.

EDUCATION

Bachelor of Science

Computer Science

Stanford University

2007 - 2011

Stanford, CA

SKILLS

- Java
- Python
- REST API Integration
- Automated Testing & CI Pipelines
- Technical Leadership
- Cross-Functional Collaboration
- Analytical Problem Solving
- Stakeholder Communication
