WORK EXPERIENCE

Software Development Engineer

Hewlett Packard Enterprise (HPE)

2023 - current Houston, TX

- Engineered backend services supporting enterprise infrastructure management platforms, enabling monitoring of ~14k device telemetry events daily across client environments.
- Optimized service-layer processing logic in Java, ***reducing average system response latency by 37%*** during peak infrastructure monitoring workloads.
- Implemented automated validation checks across 8 platform modules, strengthening reliability of device configuration and reporting workflows.
- Collaborated with product and infrastructure teams to deliver feature updates on a two-week sprint cadence.

Software Developer

IBM

2020 - 2023 Austin, TX

- Developed application features for enterprise data processing platforms, enabling analysis of 120+ operational data records per processing cycle.
- Refactored service components in Java, ***shortening batch processing time by 21 minutes*** per job run for internal analytics workflows.
- Integrated RESTful APIs connecting 3 enterprise data services used by client-facing reporting tools.
- Partnered with QA and product stakeholders to release system enhancements that improved internal usability evaluation scores to 4.6 / 5.

Junior Software Developer

Oracle

2017 - 2020 Austin, TX

- Built backend utilities supporting database administration workflows, enabling management of 90+ configuration tasks daily within internal tools.
- Automated recurring data validation scripts in Python, ***reducing manual verification work by ~4 hours*** weekly for database administrators.
- Investigated inconsistencies in data synchronization pipelines, resolving issues affecting three enterprise reporting systems.
- Documented deployment procedures and development guidelines that shortened onboarding time for new developers by one training cycle.

EDUCATION

Bachelor of Science
Computer Science
University of Texas
2013 - 2017
Austin, TX

SKILLS

- Java
- Python
- REST API Development
- Enterprise Systems Development
- Cross-Functional Collaboration
- Analytical Problem Solving
- Agile Development Practices
- Technical Documentation
