CARMELA SORIANO

Textile and Fiber Engineer

csoriano@email.com (63) 951-454-6789 Bulacan, PH

WORK EXPERIENCE

Process Engineer

Universal Robina Corporation – Textile Division

March 2022 - current Bulacan, PH

- Optimized yarn spinning parameters reducing thread breakage rate by 18% on 3 production lines.
- Led quality control improvement initiative cutting fabric defect rate from 6% to 2.1%.
- Developed standard operating procedures for 8 weaving and finishing processes.

Manufacturing Engineer

Litton Mills Philippines

July 2019 - February 2022 Quezon City, PH

- Managed fabric dyeing process ensuring color consistency across 500+ monthly production batches.
- Reduced chemical consumption in wet processing by 14% through formulation optimization.
- Trained 30+ production staff on updated textile quality inspection standards.

Textile Engineering Intern

Philippine Textile Research Institute

January 2019 - May 2019 Taguig, PH

- Assisted in fiber characterization testing for locally sourced natural and synthetic materials.
- Observed fabric performance testing including tensile strength and colorfastness evaluation.

EDUCATION

Bachelor of Science in Textile Technology

Textile Technology

Technological University of the Philippines

2014 - 2019

Manila, PH

SKILLS

- Yarn Spinning
- Fabric Weaving
- Dyeing Processes
- Textile Quality Control
- ASTM Textile Standards
