EDUCATION

Bachelor of Science in Civil Engineering

Civil Engineering

University of the Philippines Diliman

2013 - 2018

Quezon City, PH

SKILLS

- ICOLD Standards
- Dam Safety
- Seepage Analysis
- SEEP/W
- Reservoir Operation
- HEC-ResSim

WORK EXPERIENCE

Dam Engineer

National Power Corporation

March 2021 - current Quezon City, PH

- Conducted dam safety inspections for 8 NPC hydroelectric dams in Luzon and Mindanao.
- Performed seepage and stability analyses for proposed dam rehabilitation at Pantabangan Dam.
- Prepared dam safety emergency action plans for 3 high-hazard dams per ICOLD guidelines.

Reservoir Engineer

National Irrigation Administration

July 2018 - February 2021 Quezon City, PH

- Managed reservoir sedimentation monitoring for 4 major irrigation reservoirs in Central Luzon.
- Designed reservoir operation rules optimizing water allocation for irrigation and flood control.
- Coordinated with PAGASA on flood forecasting and early warning system for La Mesa watershed.

Dam Engineering Intern

Metropolitan Waterworks and Sewerage System

January 2018 - May 2018 Quezon City, PH

- Assisted in visual inspection of Ipo and Angat dam spillway structures.
- Observed reservoir level monitoring and gate operation procedures during a flood event.
- Compiled dam instrumentation readings for the monthly dam safety monitoring report.
