Mandaluyong, PH

EDUCATION

Bachelor of Science in Electronics and Communications Engineering

Electronics and Communications Engineering

Far Eastern University

2013 - 2018

Manila, PH

SKILLS

- RF Planning
- 5G NR
- LTE Optimization
- Drive Testing
- Antenna Design
- Network KPI Analysis

WORK EXPERIENCE

Telecommunications Engineer

DITO Telecommunity

April 2021 - current Mandaluyong, PH

- Designed and optimized 5G NR cell site configurations across 50+ base stations in Metro Manila.
- Conducted RF propagation surveys reducing coverage gaps by 35% in assigned service areas.
- Coordinated civil and electrical works for 20 new tower construction projects on schedule.

RF Engineer

Globe Telecom

August 2018 - March 2021 Taguig, PH

- Performed drive tests and network optimization for LTE network covering 3 provinces.
- Analyzed KPIs and implemented parameter changes improving call drop rate by 18%.
- Prepared frequency allocation plans for 10 new cell site deployments in Visayas.

Telecommunications Engineering Intern

Philippine Long Distance Telephone Company

January 2018 - May 2018 Makati, PH

- Assisted in fiber optic cable splicing and testing for a last-mile connectivity project.
- Observed BTS commissioning activities for 3 new LTE tower installations in Bulacan.
- Compiled network performance data for the quarterly subscriber experience review.
