EDUCATION

B.S. Mining Engineering
Mining Engineering
Caraga State University
2012 - 2017
Butuan, PH

SKILLS

- AutoCAD Mine
- Mine planning and design
- Blasting Design
- Geotechnical Assessment
- DENR-MGB Compliance

WORK EXPERIENCE

Mining Engineer

Philex Mining Corporation

May 2021 - current Padcal, Benguet, PH

- Designed short-term mine plans for underground copper-gold operations covering 3 stopes.
- Optimized blast patterns reducing ore dilution by 12% in narrow vein mining areas.
- Prepared monthly mine production reports submitted to MGB Regional Office on schedule.

Mine Planning Engineer

Nickel Asia Corporation

Aug 2017 - Apr 2021 Taguig, PH

- Developed annual mine plans for 2 laterite nickel open-pit operations in Surigao del Norte.
- Conducted pit slope stability assessments in coordination with geotechnical consultants.
- Reduced haul road maintenance costs by 17% through optimized pit design and drainage planning.

Mining Engineering Intern

Apex Mining Company

Jan 2017 - May 2017 Maco, Davao de Oro, PH

- Observed underground development and stoping operations in a gold mine.
- Assisted in ore sampling and grade control activities across 4 active mining levels.
- Compiled daily shift production reports for mine engineering supervisors.
