Pasay, PH

EDUCATION

B.S. Aerospace Engineering
Aerospace Engineering
University of the Philippines Diliman
2012 - 2017
Quezon City, PH

SKILLS

- MATLAB
- ANSYS
- CFD Analysis
- Aircraft Structures
- Flight Mechanics
- CAD Modeling

WORK EXPERIENCE

Aerospace Engineer

Philippine Airlines Engineering

Mar 2020 - current Pasay, PH

- Performed structural analysis and repair assessments on B777 and A321 airframe components.
- Prepared engineering orders for 30+ non-routine structural repairs compliant with FAA/EASA.
- Reduced aircraft-on-ground time by 12% through improved repair documentation workflows.

Design Engineer

Aerotech Industries Philippines

Jun 2017 - Feb 2020 Laguna, PH

- Designed and tested composite structural components for UAV airframe applications.
- Conducted CFD simulations in ANSYS Fluent to optimize wing profiles for 2 drone prototypes.
- Supported wind tunnel testing campaigns validating aerodynamic performance of 3 designs.

Aerospace Engineering Intern

Civil Aviation Authority of the Philippines

Jan 2017 - May 2017 Pasay, PH

- Assisted in reviewing airworthiness directives and service bulletins for general aviation fleet.
- Supported inspectors in evaluating maintenance records for 15 registered light aircraft.
- Compiled technical library of FAA Advisory Circulars relevant to Philippine aviation standards.
