HAROLD DIMACULANGAN

Hydraulic Engineer

hdimaculangan@email.com (63) 950-343-5678 Pampanga, PH

WORK EXPERIENCE

Hydraulic Engineer

National Water Resources Board

April 2021 - current Quezon City, PH

- Developed flood inundation models for 5 river systems in Central Luzon using HEC-RAS.
- Conducted hydraulic assessments for 3 proposed dam rehabilitation projects.
- Prepared water allocation studies supporting groundwater permit applications for 20+ industries.

Water Resources Engineer

AECOM Philippines

August 2018 - March 2021 Makati, PH

- Designed stormwater drainage systems for 4 large-scale subdivision development projects.
- Performed hydrological analysis for 6 bridge hydraulic studies along national highways.
- Coordinated with DPWH and DENR on environmental flow requirements for river infrastructure.

Hydraulic Engineering Intern

National Hydraulics Research Center

January 2018 - May 2018 Quezon City, PH

- Assisted in physical hydraulic model testing for a proposed diversion dam in Mindanao.
- Collected and processed stream flow data from 4 gauging stations in Nueva Ecija.

EDUCATION

Bachelor of Science in Civil Engineering

Civil Engineering

University of the Philippines Diliman

2013 - 2018

Quezon City, PH

SKILLS

- HEC-RAS
- HEC-HMS
- Flood Modelling
- Hydrological Analysis
- SWMM
- WaterCAD
